

KEH

is for k-sahg

KEH makes a "k" sound. With a black crayon or marker, cross out any letter that is not KEH.

Sarkis forgot to tell you that another Armenian letter makes the "k" sound. Do you remember which one? Yes, it is **q** (KEEM). Find a home for both KEH and KEEM.

Underline the KEH letters in each of these words. Try to say these words. Look in pages 40, 32 and 17 of your workbook for help.
